(512) 463-0506

District 46  
Travis County

August 24, 2011

Mr. Mark R. Vickery, P.G.  
Executive Director  
Texas Commission on Environmental Quality  
12100 Park 35 Circle  
Austin, Texas 78753

Dear Mr. Vickery:

As the State Representative for the citizens impacted by the application by AF Agricultural Resources LLC for Septage Registration #710918, I respectfully request a public meeting to be conducted by the Texas Commission on Environmental Quality. The neighbors that would be impacted by this registration have valid concerns and should have an opportunity for a dialogue with the Commission. The meeting would not only make available to them additional information about the project, but it would also allow for informed public comment and involvement.

The registration would permit septage waste pumped from septic tanks to be trucked into a residential area of eastern Travis County that is highly populated and an area of growth. Cottonwood and Wilberger Creeks and other environmentally sensitive sites are located in the proposed application area. It is also the same site where a previously submitted application was withdrawn.

Thank you for your consideration of my request to hold a public meeting in regards to this septage application. Thank you for your service to our great state to protect our human and natural resources. Working together we can ensure clean air, clean water, and the safe management of waste. If you have any questions or concerns regarding this issue, please contact my Chief of Staff, Pamela McPeters.

Sincerely,

A handwritten signature in black ink that reads "Dawnna Dukes".

Dawnna Dukes  
State Representative, District 46
